Annual NOI Increase

Core Strategy to Increase NOI

Grow Residential Rental Income

Close the Gap to Market
The OM estimates existing residential rents are approximately 20% below comparable market rents. Apartment-level rent and lease reviews will sequence adjustments and renewals.

Improve Apartments on Turnover
Modest cosmetic upgrades — flooring, cabinetry, lighting, and finishes — to support stronger rents while preserving the property's 1924 character.

Rent Increases & Stabilizing Operations

MTM to Lease Conversion
The majority of residents are on month-to-month (MTM) leases. By getting them into leases, BCGK Communities can also lock in 7% annual rent increases.

Stabilizing Operations & Increased Fees
Optimize parking, storage, and laundry income while adding community service fees and utility and internet chargebacks, with BCGK Communities focused on boosting gross scheduled income (GSI).

Evaluate a 43rd Apartment

Office-to-Unit Conversion
Study converting the 670-SF SistaBees office into an additional apartment, subject to feasibility and approvals.

Market-Rent Benchmark
The OM's market-rent scenario grows NOI from $425,386 to $578,237 — **+$152,851/year (+35.9%)**.
